The stock market has been a little more active to-day, the total sales being 178,200 shares, but of this amount over 60 per cent. consisted of transec-tions in St. Paul, Lackawanna, Union Pacific. Northwestern and New York Central, in which the sales ranged between 30,900 and 16,000 each, in the order named. Prices were so newhat irregular, but taking the day as a whole, weak. The dey, range from 1/4 to 1 per cent. In early trading this morning there was a drive made at the mar-ket, which reduced prices small fractions from the opening quotations, but which was met in a short time by sustaining orders. The highest prices were reached generally before midday.

In the afternoon the market became very dull with a dreoping tendency, but without any decided breaks, which continued until 1 o'clock, when prices again yielded. The decline was checked shortly before 3 o'clock, and the market

closed steady on a rally of 1/2 to 1/2 per cent, from the lowest quotations of the day. MARKETS BY TELEGRAPH.

Produce markets CHICAGO, May 29 .- There was an excited market for all the cereals on 'Change to day, with lower prices prevailing, and the downward movement extended also to provisions. The receipts of both wheat and corn were large and with no particular outside support, a savage raid was made by the bears which carried prices to the lowest point current since April 19, and nearly 4c lower than one week ago. This was done in spite of the most damaging reports which have yet been recrived concerning the growing winter wheat crops. The bears contend, however, that until the large stocks here and at Duiuth have been worked off, lower prices are bound to prevail and offer enforced argument by industing in a goeat deal of "short" selling and also drawing some "iong" wheat. The claim is made, however. that some vesy extensive lines of "long" wheat are being purchased in the perfect confidence of very high prices for wheat when the crop's condition once is appreciated. July wheat sold at one time at 87%c, which is 10c under the highest price reached during the year for that option. The feeling in the afternoon was somewhat firmer, on the statement that the statement that there was more shipping inquiry, but the advance was not marked, and the market closed for the day le under yesterday. The receipts of corn were large, 623 cars, and influenced, by the prospects of very large receipts Monday. The offerines were large, and the market broke %c and closed ic under yesterday. Oa's were dull and heavy, in sympathy with the other markets, and closed 160 lower. There were very free offerings of pork, and prices declined 20@35c early, but rallied a shade and closed moderately steady at the decline. Lard also dedelined 5@10c, and closed steady. Flour ruled dull and wesk. The decline in wheat keeps buyers out of the market, and there was no demand. Wheat was active at lower prices. Foreign advices were untavorable, and the receipts continue large. When the price for July reacted to 88c, considerable 'long' wheat came out on stop orders, and this assisted the decline The market declined 114c, fluctuated and closed 114c under yesterday.
